EXPERIENCE

Python Developer

Cognifyz IT Solutions

08/2026 - Present

- Developed Python web scraping applications using BeautifulSoup and Scrapy to extract structured data from web sources.
- Performed HTML/XML parsing, data extraction, cleansing, validation and preparation for analysis using Pandas.
- Created data visualizations using Matplotlib, Seaborn and Plotly.
- Developed Python automation scripts for data processing, file management and report generation.
- Utilized Git and GitHub for version control, code management and team collaboration.
- Wrote clean, modular and reusable Python code following OOP principles and best practices.
- Stored and managed extracted datasets in MySQL and exported cleaned data to CSV/JSON formats.

PROJECTS

Chat Application Backend

- Developed a FastAPI-based backend REST API supporting user registration, authentication and chat functionality.
- Integrated MySQL using SQLAlchemy ORM and PyMySQL for data persistence.
- Implemented database models, CRUD operations, Pydantic input validation, password hashing and authentication workflows.
- Tested and documented API endpoints using FastAPI Swagger (OpenAPI).
- Structured the codebase into modular routers, models and schemas for scalability and maintainability.

Job Portal REST API

- Developed a RESTful backend API for a job portal using Python and FastAPI.
- Implemented user registration and login with JWT-based authentication and authorization.
- Created functionality for job seekers and employers.
- Implemented CRUD operations for job postings, applications and user profiles.
- Integrated MySQL using SQLAlchemy ORM for data persistence and management.
- Implemented request validation, error handling and role-based access control.
- Tested API endpoints using Postman and FastAPI Swagger documentation.
- Designed a relational database schema with MySQL tables and relationships for users, jobs and applications.
- Used Git and GitHub for source code management and version control.

E-Commerce REST API

- Developed a RESTful API for managing e-commerce products and users.
- Implemented CRUD operations for creating, retrieving, updating and deleting product and user data.
- Integrated MySQL using SQLAlchemy ORM for structured data storage.
- Designed and implemented API endpoints using FastAPI with request validation and error handling.
- Tested and validated API endpoints using Postman and FastAPI Swagger.
- Followed REST API design principles with proper HTTP methods and status codes.
- Used Git and GitHub for source code management and version control.

SUMMARY

Python Backend Developer | Python Developer

BCA graduate, MCA student and Python Developer with hands-on experience in REST API development, backend development, web scraping, data processing and automation. Skilled in Python, FastAPI, Flask, REST APIs, JWT authentication, SQL, MySQL, PostgreSQL, SQLAlchemy ORM, Pydantic, Git, GitHub, Postman, Swagger/OpenAPI and Docker. Built backend projects involving authentication, CRUD operations, database integration, request validation and API testing. Seeking an entry-level Python Developer or Backend Developer position.

PROJECTS

House Price Prediction

- Developed a machine learning model in Python to predict house prices.
- Performed data preprocessing, exploratory data analysis (EDA) and feature preparation using Pandas and NumPy.
- Applied Scikit-learn regression algorithms and evaluated model performance using standard metrics.
- Visualized data trends and feature relationships using Matplotlib and Seaborn.

Web Scrapping

- Developed a Python-based web scraper to extract structured book data from a website using Requests and BeautifulSoup.
- Processed and stored scraped data using Pandas and exported the data to MySQL for analysis and management.
- Handled pagination, HTML parsing and data cleaning to ensure accurate, structured output.

SKILLS

Libraries

Pandas NumPy Scikit-learn
Matplotlib Seaborn Plotly

Tools

Git GitHub VS Code Postman
Swagger (OpenAPI) Docker (Basics)
Pytest Linux

Concepts

OOP Data Structures SDLC JSON
Unit Testing

Soft Skills

Problem Solving Communication
Teamwork Time Management
Adaptability
